

Dear colleagues,

Within less than two years and with support of the Erasmus+ programme, our partnership managed to develop pedagogical material, which aims at promoting inclusive teams for children under 12 years of age in sport clubs.

By providing this online pedagogical tool for coaches and club directors, we propose to focus on the development of skills and values rather than on competition only. Our goal is that more and more clubs provide opportunities where children with different abilities can train together. This would make room for children with mental, sensorial or physical disability. By focusing on such healthy competition, we are confident that the best potential of each child can be reached.

By creating an additional “school of parents”, we support parents in accepting diversity in the team, and in understanding the focus on the development of children through inclusion and tolerance rather than through competition and superiority.

Join us in our event and become familiar with the material, which we have produced! To register, please use the following link: <http://forms.gle/AHcAu4bPiJTFNAzk6>

DITEAM12 stands for Diverse and Inclusive Teams for Children Under 12. If you want to learn more about the project, feel free to contact us.
